- *There is NO patent pending grant after expiry of the statutory period of notice.*

GENERAL OBSERVATION

From the above-mentioned report, it is my considered view that this month's journal has most publications coming from AFRICA with a total of 85 publications differing from other continents such as EUROPE, ASIA and AMERICA across the global. Thus from this report is a good start to the African countries point of view as far as intellectual property rights is concerned

This report as revealed that despite the largest number of publication is from Tanzania but stills there is need to draw awareness to Tanzanian on the benefits of intellectual property and mechanism for protection of

those rights.
